

RLC Museum B Vehicle History Card Archive

The RLC Museum holds the Army B Vehicle History cards previously held by the Museum of Army Transport. These cards can help trace the history of individual Army soft-skin vehicles that were in service with the British Army from the early 1940s.

The RLC Museum offers owners of B Vehicles the opportunity to obtain a scanned copy of the vehicle history card for their vehicle.

How to obtain a copy of your vehicle history card

In order to obtain a scanned copy of a vehicle history card you will need to provide The RLC Museum with your vehicle's equipment registration number (ERM). If you only have the vehicle make and chassis number it may still be possible to find a card for your vehicle. Any other data such as the contract number and year of manufacture may also be helpful in searching for a vehicle's card.

There is a non-refundable research fee for this service. For the research of one vehicle, there is a charge of £25 (£15 for members of the Friends of The RLC Museum) and £15 for any additional vehicles accompanying your enquiry. Cheques must be made payable to 'The RLC Museum Trust Fund'. Cheques together with your vehicles' details should be sent to:

B Vehicle Records, The Royal Logistic Corps Museum, The Princess Royal Barracks, Deepcut, Camberley, Surrey, GU16 6RW

Please note

- The RLC Museum does not hold records for Army vehicles which entered service after 1989.
- The RLC Museum holds approximately 170,000 B vehicle history cards. This by no means equates to a card for each soft skinned vehicle that entered service with the Army from the early 1940s to the late 1980s. Of the cards held by The RLC Museum the vast majority relate to vehicles in service in the mid 1960s and entering service up to the late 1980s. It is therefore possible that no card exists for your vehicle.
